

## Web Designing Training + Certification

### Learning Collaborations

### Global Certifications

## Intro to the **Web Design Program**

Web Design is a Web development process for creating a website that focuses on aesthetic factors like layout, user interface and other visual imagery in order to make the website more visually appealing and easy to use. In order to create a winning design, Web designers need to think about their audience, the purpose of the website and the visual appeal of the Web Designing.

## About the **Web Design Certification**

This course is designed for clearing the TechVidya Web Design Certification. The entire course content is in line with the certification program and helps you clear the certification exam with ease and get the best jobs in top MNCs.

As part of this training, you will be working on real-time projects and assignments that have immense implications in real-world industry scenarios.

At the end of this program, there will be an assessment that perfectly reflects the type of questions asked in the certification exam and helps you score better marks.

TechVidya Course Completion Certificate will be awarded upon the completion of the project work and upon scoring at least 60% marks in the final assessment.

## Objectives of the **Web Design Certification**
